It is the policy of the University of New England College of Osteopathic Medicine (UNE COM) to insure balance, independence, objectivity, and scientific rigor in all of its individually sponsored or jointly sponsored educational programs as outlined in the ACCME Standards of Commercial Support and the AOA Standards for Commercial Support. All parties participating in any UNE COM sponsored programs are expected to disclose to the program audience any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing education program. This pertains to relationships with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the subject matter of the presentation topic.

Financial interest or other relationship may include such things as grants or research support, employee, consultant, major stockholder, member of speaker bureau. The intent of this policy is not to prevent a speaker or planning committee member with a potential conflict of interest from participating. It is merely intended that any potential

conflict should be identified openly so that the listeners may form their own judgments about the program content with the full disclosure of the facts. It remains for the audience to determine whether outside interests may reflect a possible bias in either the exposition or the conclusions presented. Such disclosure is not intended to suggest or condone bias in any presentation, but is elicited to provide the course director and participants with information that might be of potential importance to their evaluation of a given presentation.

1. The following planners, speakers, and content reviewers have reported no actual or potential conflict of interest in relation to this program or presentation.
